1000+ Riddles with Answers, Edited by Melkisedeck Leon Shine

Answer: A river ?

Explanation: A river has a mouth where it meets the ocean or another body of water, but it can't talk like we humans do! It just keeps flowing along, babbling away in its own watery language. ?? But hey, who needs words when you've got endless waves and delightful splashes to express yourself, right? Dive in and ride the river of laughter! ??
