Riddle: What is easy to get into but hard to get out of? ?

Short Answer: Trouble! ?

Explanation: Imagine getting into a tricky situation or making a mistake, it's often a breeze to find ourselves in trouble. However, finding a way out can be quite challenging! It's like falling into a deep, dark hole (represented by the ? emoji) where escape seems almost impossible. So, remember to avoid trouble in the first place, or you might find yourself stuck without a ladder! ??
