

What can you catch, but not throw?

By Melkisedeck Leon Shine · July 3, 2023

1000+ Riddles with Answers, Edited by Melkisedeck Leon Shine

Short answer: A cold! ?

Explanation: You can catch a cold when you're exposed to the virus, but you can't exactly throw it to someone else! It's a playful way to remind ourselves that catching a cold is not something we willingly pass on to others. So, take care and stay healthy! ??
